

## Faraday Technology Vietnam *Synergy for Excellence*

### Who are WE:

**Faraday Technology Corporation** is a leading fabless ASIC design and silicon IP (intellectual property) provider established in 1993 as the first Asian ASIC vendor. Faraday is listed on the Taiwan Stock Exchange (TWSE) under ticker number 3035.

**Faraday Technology Vietnam (FTV)** is established in Ho Chi Minh in 2019. We aim to be a full-fledged R&D center, spanning from RTL design to post-silicon verification.

- More than 30 years of professional IC design experience.
- Job functions include RTL design, RTL verification, Design-for-test (DFT), Static timing analysis, Physical design, Memory and Standard cell IP design & Layout etc.
- More than 50 tape-outs per year, with applications covering Consumer, Networking, IoT and Niche (Medical, Automotive, Aerospace) etc.
- 1st Tier Customers in major geographic location
- Open Sharing and Learning environment
- Accelerated IC design Career Path with Competitive Package

♦ **Location:** 153Q, Tran Hung Dao, Ninh Kieu Ward, Can Tho City, Vietnam

Faraday Technology Vietnam is thrilled to announce opening for **DFT-STA Engineer**

## INTERNSHIP PROGRAM

### CAN THO - BATCH 10.2025

**APPLICATIONS NOW OPEN!**

- 288 hours internship program
- Learn to use the latest EDA tools for chip design
- Demonstrate using "real-world" block design
- Weekly review with Mentor/ Manager

INTERNSHIP POSITION:	REQUIREMENTS:
DFT - STA Engineer	<ul style="list-style-type: none"><li>• Major:<ul style="list-style-type: none"><li>Electronics &amp; Electricals</li><li>Electronics &amp; Telecommunication</li><li>Computer Engineering</li><li>Computer Science</li><li>Physics or Related Majors.</li></ul></li><li>• Final year students.</li><li>• GPA at least 7.0/10 or 3.0/4.0</li></ul>

**SCAN TO APPLY**

**Deadline:**  
20.08.2025
